Flights

1. Basic P

MANIAC Known compulsory flown twice

NOTE: This is Nordic flight sequence, not IAC

Not NAC category

2. Sportsman P,G

IAC Known compulsory flown twice

If weather and available time allows, the CD may ask for a third flight according to the Nordic rules, but NAC will be based on the first two flights only

3. Intermediate P,G

IAC Known Compulsory

IAC Free program

IAC Unknown #1

IAC Unknown #2

4. Advanced P,G

CIVA Free known

CIVA Unknown #1

CIVA Free Unknown #2

CIVA Unknown #3 (weather permitting)

5. Unlimited P,G

CIVA Free known

CIVA Unknown #1

CIVA Unknown #2

CIVA Unknown #3 (weather permitting)

Power advanced Free Unknown #2

First flight is CIVA Free known. Second flight is CIVA Unknown #1 which will be provided by organization. Third flight is Free Unknown #2 which will be created during the competition from figures given by each competitor as CIVA rules state.

We will create unknown program the same way as they are created in world championships. The goal of the process is to prepare and rehearse pilots for European and World Championships. Unfortunately, because of time and human resource limitations, we can create only one program this way, the other unknowns will be provided by the organization.

Please study carefully CIVA rule book, section 2.3

https://www.civanews.com/wp-content/uploads/Section6_Part2_v2022_1.pdf

Be prepared to propose figures in the competition, and be ready to create a sequence proposal from the selected figures. When considering of suitable figure(s), please, bear in mind that you need to fly it yourself, too. Experience has shown that too exotic maneuvers may back-fire.

For Gliders there will most likely not be enough pilots to make sense to have CIVA unknown figure selection process, and all Advanced Glider unknowns will come from the organization.

Please send free and free known sequences in Openaero-format, no later than 10.7.2022 to CD Kari Kemppe, kari.kemppe@gmail.com
