NORDIC AEROBATIC CHAMPIONSHIPS  
NAC 2026  
&  
NGAC 2026**

**Aerobatic Club of Finland**

**Bulletin 2**

## **Intermediate will fly according to CIVA rules**

This is a change to bulletin #1. In MANIAC meeting (coordination meeting between the four Nordic countries) on 13.1.2026 it was decided that also Intermediate class (Power only) will fly according to CIVA rules, not IAC as was previously stated.

The flights will be:

- CIVA Intermediate Free known
- CIVA Intermediate Unknown #1
- CIVA Intermediate Unknown #2

Second flight is CIVA Unknown #1 which will be provided by organization. Third flight is Free Unknown #2 which will be created during the competition from figures given by each competitor as CIVA rules state.

Organizer is prepared to provide also Unknown #2 if for some reason pilots are not ready to create program on site during the competition.

Organizer has published three free known program for Intermediate power to help pilots to prepare for the competitions, in case the pilot does not want to create his/her own Free known program. The intermediate free known programs are available in .seq and .pdf files from the competition site <https://taitolento.fi/nordic-aerobatic-open-championship-2026/>

## **Basic/Primary will fly three flights**

Basic/Primary class will fly three flights (time and weather permitting) and the two best will be selected to count towards results.
